

# Grey Hat Membership Agreement

Professional ethics are taken very seriously in the Grey Hat Group! There will be no tolerance for computer trespass, computer vandalism, or negligence of safeguards.

Students, staff, and visitors of the University of Washington, are expected to abide by: UW Computer Use Policies, <http://www.washington.edu/computing/rules/>, the Wire Taping Act, the Electronic Communications Privacy Act, and the Forth Amendment.

Members of the Grey Hat Group are held to an even higher standard. Grey Hat Members must also abide by the Grey Hat Group Constitution, <http://students.washington.edu/greyhat/docs/GHGGoverningDOCS.pdf>, which includes a licensing agreement, a nondisclosure agreement and a code of conduct. All Grey Hat Members are responsible to know and abide by these doctrines.

I, [print name] \_\_\_\_\_, as a member of the Grey Hat Group agree to abide by the Grey Hat Group Constitution in full, its included doctrines listed above, and to be governed by those documents in all Grey Hat Group meetings, projects and activities. I understand that signing this document holds the same weight and has the same effect as signing the licensing agreement, the nondisclosure agreement and the code of conduct referenced to in the Grey Hat Group Constitution.

These requirements are to protect the the Grey Hat Group as a whole, individual Grey Hat Members and society at large.

When in doubt ask!
